awesome graffiti simulator!worth the money.but where is my f####ing blackbook. A perfect game. Really not much at all that could make this game better.. Interesting game, a little rough around the edges, but then again, it's launch day so what can you expect? Fun though.. So far, I suck at this game.

But I'm having fun with it. Alllllll the guns.

My wife looked over my shoulder while I was playing and said "OMG, there are so many of them," and yes there are.

See new and exotic lands.

Meet interesting people.

See a huge variety of planes.

And kill them.. INDIE TRASH

YOU'RE BETTER OFF PLAYING A PROPER PS1/PS2/NES GAME THAN WASTING YOUR TIME ON THIS TRASH 0/10 SHAME ON THE GAME DEV. The art is really good and the UI is outstanding, but the rest doesn't really follow. The combat system is a mixed bag, it's interesting and clearly some work went into it, but it's confusing and very unbalanced (so in the end you just spam the overpowered skills and combat gets boring). The story and characters are somewhere between "mediocre" and "trash" for the most part. Shallow, unoriginal, and just not engaging.

There is some real potential from that dev because some parts are way above average for a RPG Maker game, but overall it's not worth your time.

RPG που έχω παίξει.

Αν το πετύχετε στις εκπώσεις, μην διστάσετε στιγμή. Αξίζει, βέβαια, να αγοραστεί και στην αρχική του τιμή.

Ο χάρτης είναι μικρός, αλλά δεν λείπουν οι προκλήσεις. Μου άρεσε που, για αλλαγή, τα κορίτσια της παρέας ήταν δυνατότερα, καθώς και η «συναναστροφή» με τις δημιουργούς.. Wanna gamble with your PC andVor working OS? Well if yes this is the ofware for you because it can:

- A) Mess up your drives so nothing works.
- B) Break your current installation of your OS
- C) Brick your PC or worse
- D) Actually update some old drivers
- E) Do nothing because you have up to date drivers

But the fun part is that you never know what you get!

Just to make it clear.

I would rather recommend to use Driver Fusion but even this software is not 100% working but at least it never bricked a PC I ever used it on.

Getting a license is actually less useful than using 27,99€ to start a campfire.

The only difference is getting Java and some other game related updates via this software then Windows Updates and Java autoupdates.

I am glad that I never had to pay for a "Pro" version of this software because I was an translator for them.

I had to install the software to test my translations and it made my PC slower and even worse.

Just keep your PC clean, defrag your registry with CCleaner free sometimes, don't download any b*****

(I'm looking at you totallyyourfavouritesongdownloadwithnovirus.exe or

stuffyouusuallyneedtopayforbutnowforfreewithnokeloggerorotherstufftrustus.exe downloader).

Oh and also backup your important data and do a clean install of your OS about every 2-3 years!. Now I love the game.

It is a great Board Game!

And have a lot of fun playing it.

Once you get the mechanic isreally cool.

(Once it crashed but the support is great.). another achievement hunters game. just run the game and automatically claim all achievement.

and you don't just pay money for achievement, the gameplay is worth that money.. FINALY A GAME WITH POTENTIAL!!!1. This game let me tell you.

If Super Meat Boy is a Platformer's Dream,

Then Slime-san must be a Platformer's Heaven.

This is just delightful.

This game is a true work of art. I cannot describe how thankful I am for this experience.

This game has produced more moments of joy in overcoming obstacles than I think I've ever had.. Doesn't work in Windows 10.. Short (12min) experience, but the length of an experience doesn't always equal what you get out of it. In this case the sense of presence of the dancer in the final scene is overwhelming and cannot be ignored. One of the few offerings at this time (late 2016) to convey such feelings. I enjoyed that part immensely and look forward to any future offerings, hopefully longer, with the same sense of presence baked into the product.. nice game, makes you think 3 moves ahead..... A horse, a horse! My kingdom for a horse!
